

wireless
electricity
monitor

The original Efergy wireless monitor has just got better. The e2 wireless electricity display device is a wireless energy monitor that can tell you at a glance how much electricity your home is using from moment-to-moment and in total (day, week, month and average consumption patterns) NOW you can also upload the data to your PC. The new look display, Energy saving toolkit and eLINK energy monitoring SOFTWARE is all included. Contents: Meter, transmitter and 1 sensor (for single phase installations) ***FOR 3 PHASE INSTALLATIONAL PLEASE PURCHASE 2 EXTRA SENSORS***

Save up to 20%
off your electricity bill
through greater awareness!

Wireless electricity monitor displaying instant power, costs and estimated CO2 emissions. It can also show historical and average data.

- Take control of your energy use
- Monitor the cost of using your home appliances and lights
- Discover and reduce the size of your carbon footprint
- Fun and educational for the whole family
